

2026 RATIONALIZED AGRICULTURE AND NUTRITION GRADE 4 SCHEMES OF WORK TERM 1

W K	L S N	STRAND	SUBSTRAN D	SPECIFIC LEARNING OUTCOME	KEY INQUIRY QUESTIO N(S)	LEARNING EXPERIENC ES	LEARNIN G RESOUR CES	ASSESSME NT METHODS	REFLECTI ON
1	1	CONSERVATI ON OF RESOURCES	Soil conservati on	By the end of the lesson the learner should be able to: -identify suitable materials for making compost manure -use digital devices to observe pictures of materials used to make compost manure -appreciate the importance of compost manure in farming	Which locally available materials can we use to make compost manure?	The learner is guided to: -in groups identify suitable materials for making compost manure - use digital devices to observe pictures of materials used to make compost manure	Agricultu re and Nutrition Grade 4 curriculu m design	-observati on -oral questions	
	2	CONSERVATI ON OF RESOURCES	Soil conservati on	-identify suitable materials for making compost manure -use digital devices to observe pictures of materials used to make compost manure	Name some of the crops we can add compost manure?	-in groups identify suitable materials for making compost manure - use digital devices to observe pictures of materials used to make	Agricultu re and Nutrition Grade 4 curriculu m design	-observati on -oral questions	

				-appreciate the importance of compost manure in farming		compost manure			
	3	CONSERVATION OF RESOURCES	Soil conservation	-state suitable materials for making compost manure -collect materials for making compost manure from the local environment -appreciate the importance of compost manure in farming	What is the importance of compost manure to farmers?	-state suitable materials for making compost manure -collect materials for making compost manure from the local environment	Agriculture and Nutrition Grade 4 curriculum design	-observation -oral questions	
	4	CONSERVATION OF RESOURCES	Soil conservation	-outline the steps for making compost manure -prepare compost manure for farming using heap method -appreciate the importance of compost manure in farming	Which steps do you follow when making compost manure?	-in groups outline the steps for making compost manure -prepare compost manure for farming	Agriculture and Nutrition Grade 4 curriculum design	-written questions -oral questions	
2	1	CONSERVATION OF RESOURCES	Soil conservation	-outline the steps for making	Why is it necessary to follow the steps	-in groups outline the steps for making	Agriculture and Nutrition	-oral questions -written questions	

				compost manure -prepare compost manure for farming using heap method -appreciate the importance of compost manure in farming	of making compost manure?	compost manure -prepare compost manure for farming	Grade 4 curriculum design		
	2	CONSERVATION OF RESOURCES	Soil conservation	-outline the importance of compost manure in farming -use compost manure in the school or home farm -desire to use compost manure in farming	How can composting conserve the environment?	-discuss the importance of compost manure in farming -use compost manure in the school or home farm	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	3	CONSERVATION OF RESOURCES	Water conservation	-state ways of conserving water in farming -explain drip irrigation as a way of conserving water -appreciate use of drip irrigation in conserving water in farming	List ways of conserving water?	-discuss ways of conserving water in farming -explain drip irrigation as a way of conserving water	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	4	CONSERVATION OF RESOURCES	Water conservation	-state ways of conserving water in farming	What is drip irrigation?	-discuss ways of conserving	Agriculture and Nutrition	-oral questions	

				-explain drip irrigation as a way of conserving water -appreciate use of drip irrigation in conserving water in farming		water in farming -explain drip irrigation as a way of conserving water	Grade 4 curriculum design	-written questions	
3	1	CONSERVATION OF RESOURCES	Water conservation	-list the steps of innovating a drip equipment -improvise a drip equipment using water pipes and containers -appreciate use of drip irrigation in conserving water in farming	Which materials should you collect to improvise a drip irrigation equipment?	-list the steps of innovating a drip equipment -improvise a drip equipment using water pipes and containers	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	2	CONSERVATION OF RESOURCES	Water conservation	-state ways of conserving water in farming -use digital devices to watch video clips of drip irrigation -appreciate use of drip irrigation in conserving water in farming	What are the advantages of using drip irrigation in farming?	-state ways of conserving water in farming -use digital devices to watch video clips of drip irrigation	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	3	CONSERVATION OF RESOURCES	Water conservation	-outline ways of observing safety while working with	What are the disadvantages of	-outline ways of observing safety	Agriculture and Nutrition	-oral questions -written questions	

				drip irrigation equipment -carry out drip irrigation to conserve water -appreciate use of drip irrigation in conserving water in farming	drip irrigation in farming?	while working with drip irrigation equipment -carry out drip irrigation to conserve water	Grade 4 curriculum design		
4	1	CONSERVATION OF RESOURCES	Water conservation	-outline ways of observing safety while working with drip irrigation equipment -carry out drip irrigation to conserve water -appreciate use of drip irrigation in conserving water in farming	Name three ways of observing safety when working with drip irrigation equipment?	-outline ways of observing safety while working with drip irrigation equipment -carry out drip irrigation to conserve water	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	2	CONSERVATION OF RESOURCES	Fuel conservation	-identify types of fuels used at home -use digital devices to observe pictures of fuels used at home -appreciate the importance of conserving fuels	Name fuels used at home?	-discuss types of fuels used at home (charcoal, firewood, gas, kerosene) -use digital devices to observe pictures of fuels used at home	Agriculture and Nutrition Grade 4 curriculum design	Oral questions Written questions	
	3	CONSERVATION OF RESOURCES	Fuel conservation	-identify types of fuels used at home	Name the fuels used at home?	-discuss types of fuels used at home	Agriculture and Nutrition	Oral questions	

				-use digital devices to observe pictures of fuels used at home -appreciate the importance of conserving fuels		(charcoal, firewood, gas, kerosine) -use digital devices to observe pictures of fuels used at home	Grade 4 curriculum design	Written questions	
	4	CONSERVATION OF RESOURCES	Fuel conservation	-list ways of conserving fuels -use and conserve fuels in cooking -appreciate the importance of conserving fuels	How can we conserve fuels?	-list ways of conserving fuels -use and conserve fuels in cooking	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
5	1	CONSERVATION OF RESOURCES	Fuel conservation	-list ways of conserving fuels -use and conserve fuels in cooking -appreciate the importance of conserving fuels	Which are uses of fuel?	-list ways of conserving fuels -use and conserve fuels in cooking	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	2	CONSERVATION OF RESOURCES	Fuel conservation	-identify the importance of conserving fuels -observe safety while using fuels -appreciate the importance of	How does reducing fuel wastage conserve our resources?	-discuss the importance of conserving fuels -observe safety while using fuels	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

				conserving fuels					
	3	CONSERVATION OF RESOURCES	Conserving wild animals	-identify small wild animals that destroy crops -cut and paste in their books pictures of small wild animals that destroy crops -appreciate the importance of living better with small wild animals	Name small wild animals which destroy crops?	-observe pictures of small wild animals that destroy crops -cut and paste in their books pictures of small wild animals that destroy crops	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	4	CONSERVATION OF RESOURCES	Conserving wild animals	-identify small wild animals that destroy crops -cut and paste in their books pictures of small wild animals that destroy crops -appreciate the importance of living better with small wild animals	Name the crops which are mostly destroyed by small wild animals?	-observe pictures of small wild animals that destroy crops -cut and paste in their books pictures of small wild animals that destroy crops	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
6	1	CONSERVATION OF RESOURCES	Conserving wild animals	-name small wild animals which destroy crops -use digital devices to search for animals which destroy crops	How can we keep off small wild animals from destroying crops	-list small wild animals which destroy crops - use digital devices to search for	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

				-appreciate the importance of living better with small wild animals		animals which destroy crops			
	2	CONSERVATION OF RESOURCES	Conserving wild animals	-list materials used to construct a scare crow -collect locally available materials to make a scare crow -appreciate the use of scare crow to keep off wild animals	What is a scare crow?	-in groups list materials used to construct a scare crow -collect locally available materials to make a scare crow	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	3	CONSERVATION OF RESOURCES	Conserving wild animals	-list materials used to construct a scare crow -collect locally available materials to make a scare crow -appreciate the use of scare crow to keep off wild animals	Which materials can be used to construct a scare crow?	-in groups list materials used to construct a scare crow -collect locally available materials to make a scare crow	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	4	CONSERVATION OF RESOURCES	Conserving wild animals	-outline the steps for constructing a scare crow -construct and use a scare crow to keep off small wild animals - appreciate the use of scare crow to	Highlight the steps followed when constructing a scare crow?	-outline the steps for constructing a scare crow -construct and use a scare crow to keep off small wild animals	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

				keep off wild animals					
7	1	FOOD PRODUCTION PROCESSES	Direct sowing of tiny seeds	-identify crops established through direct sowing of tiny seeds -use digital devices to observe pictures of crops grown through direct sowing -adopt direct sowing in establishment of food crops	Which food crops are grown through direct sowing?	-in groups list crops grown through direct sowing of tiny seeds -use digital devices to observe pictures of crops grown through direct sowing	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	2	FOOD PRODUCTION PROCESSES	Direct sowing of tiny seeds	-identify crops established through direct sowing of tiny seeds -use digital devices to observe pictures of crops grown through direct sowing -adopt direct sowing in establishment of food crops	How does direct sowing of tiny seeds enhance food production process?	-in groups list crops grown through direct sowing of tiny seeds -use digital devices to observe pictures of crops grown through direct sowing	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	3	FOOD PRODUCTION PROCESSES	Direct sowing of tiny seeds	-list the steps of preparing a seedbed -sow tiny seeds in finely prepared seedbed -adopt direct sowing in establishment of food crops	which steps are followed to prepare a seed bed?	-list the steps of preparing a seedbed -sow tiny seeds in finely prepared seedbed	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

	4	FOOD PRODUCTION PROCESSES	Direct sowing of tiny seeds	-list the steps of preparing a seedbed -sow tiny seeds in finely prepared seedbed -adopt direct sowing in establishment of food crops	What is the importance of preparing a seedbed?	-list the steps of preparing a seedbed -sow tiny seeds in finely prepared seedbed	Agriculture and Nutrition Grade 4 curriculum design		
8	MID ASSESSMENTS/MID TERM								
9	1	FOOD PRODUCTION PROCESSES	Growing fruits	-identify fruits that grow in the locality -draw and colour different fruits that grow in the locality -appreciate the importance of consuming fruits for nutrition	Name the fruits that grow in your locality?	-In groups discuss fruits that grow in the locality -draw and colour different fruits that grow in the locality	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	2	FOOD PRODUCTION PROCESSES	Growing fruits	-identify fruits that grow in the locality -draw and colour different fruits that grow in the locality -appreciate the importance of consuming fruits for nutrition	What is the importance of taking fruits?	-In groups discuss fruits that grow in the locality -draw and colour different fruits that grow in the locality	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	3	FOOD PRODUCTION PROCESSES	Growing fruits	-state fruits that grow in the locality -use digital devices to observe	Which fruits are mostly grown in your locality?	-state fruits that grow in the locality -use digital devices to observe	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

				pictures of different fruits -appreciate the importance of consuming fruits for nutrition		pictures of different fruits			
	4	FOOD PRODUCTION PROCESSES	Growing fruits	-match the fruits with their names -use digital devices to observe pictures of different fruits -appreciate the importance of consuming fruits for nutrition	Which vitamin is provided by fruits?	-state fruits that grow in the locality -use digital devices to observe pictures of different fruits	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
10	1	FOOD PRODUCTION PROCESSES	Growing fruits	-state fruits that grow in the locality -collect different fruits and bring them to class -appreciate the importance of consuming fruits for nutrition	Which fruits are likely to grow in your locality?	-list fruits that grow in the locality -in groups collect different fruits and bring them to class	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	2	FOOD PRODUCTION PROCESSES	Growing fruits	-outline the steps followed when growing a fruit tree -grow a fruit tree suited in the locality -appreciate the importance of consuming	Which steps are followed when growing a fruit tree?	-outline the steps followed when growing a fruit tree -grow a fruit tree suited in the locality	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

				fruits for nutrition					
	3	FOOD PRODUCTION PROCESSES	Growing fruits	-list the importance of consuming fruits to our health -develop self efficacy when they produce own fruits for consumption - appreciate the importance of consuming fruits for nutrition	Why are fruits good to our health?	-in groups discuss the importance of consuming fruits to our health -develop self efficacy when they produce own fruits for consumption	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	4	FOOD PRODUCTION PROCESSES	Growing fruits	-identify ways of taking care of growing fruits trees -cut and paste pictures of different fruit trees in their books -desire to grow fruit trees suited in their locality	Why should we take care of growing fruit trees?	-identify ways of taking care of growing fruits trees -cut and paste pictures of different fruit trees in their books	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
1 1	1	FOOD PRODUCTION PROCESSES	Uses of domestic animals	-identify domestic animals in the community -use digital devices to observe pictures of domestic animals -appreciate the importance of domestic animals for	What are domestic animals?	-list domestic animals in the community -use digital devices to observe pictures of domestic animals	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

				food production					
	2	FOOD PRODUCTION PROCESSES	Uses of domestic animals	-identify domestic animals in the community -use digital devices to observe pictures of domestic animals -appreciate the importance of domestic animals for food production	name five domestic animals?	-list domestic animals in the community -use digital devices to observe pictures of domestic animals	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	3	FOOD PRODUCTION PROCESSES	Uses of domestic animals	-outline the uses of domestic animals -draw and colour domestic animals -appreciate the importance of domestic animals for food production	How are domestic animals important to us?	outline the uses of domestic animals -draw and colour domestic animals	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	
	4	FOOD PRODUCTION PROCESSES	Uses of domestic animals	-state the products we get from domestic animals -cut and paste pictures of domestic animals in their books	Name the products we get from domestic animals?	-list the products we get from domestic animals -cut and paste pictures of domestic	Agriculture and Nutrition Grade 4 curriculum design	-oral questions -written questions	

				-appreciate the importance of domestic animals for food production		animals in their books
