REF: REQUEST FOR INFRASTRUCTURAL SUPPORT THROUGH CDF

Dear Sir/Madam,

On behalf of Dihle Nur Primary and Junior School, I wish to humbly submit a request for infrastructural support from the Constituency Development Fund (CDF) of Lagdera Constituency to improve the learning environment and safety of our learners.

Specifically, we seek assistance in the following areas:

- i. Construction of a Perimeter Fence – To enhance security and safeguard school property as well as the safety of learners.
- ii. Renovation of Six (6) Classrooms – To provide a conducive learning environment by repairing worn-out structures and ensuring that pupils learn in safe and comfortable classrooms.
- iii. Construction of a Modern Kitchen – To facilitate the school feeding program and ensure meals are prepared in a clean, safe, and hygienic environment.
- iv. Construction of Staff Quarter – To accommodate teachers within the school compound, promote punctuality, and improve teacher availability for learners.
- v. Construction of Two (2) Pit Latrines – To address sanitation needs and promote health, hygiene among learners and staff.
- vi. Construction of a Laboratory for Junior School – To support practical learning in science subjects, enhance competency-based curriculum (CBC) implementation and equip learners with hands-on skills.

We believe that the implementation of the above projects will greatly uplift the standards of education in our school and create a safe, secure, and enabling environment for both learners and teachers.

We humbly appeal for your consideration and support.

Yours faithfully,

Adow M. Mohamed
HeadTeacher
Dihle Nur Primary and Junior School
