July 2025

INSTRUCTIONS TO SCHOOLS

1. This is a project paper which should be taken in **1 month**.
2. Teachers are provided with scoring guides.
3. The project will be assessed in parts, where each task should be scored, and a record maintained for each learner.

INTRODUCTION

- i. This project comprises of activities from all components of the Agriculture Curriculum Designs (Agriculture and Home Science).
- ii. With the guidance of the teacher, learners are required to fully undertake this project whose assessment scores will form part of the final summative assessment score for the learner.
- iii. In some of the tasks, learners are expected to work in groups of 4-5.
- iv. Each member of the group is expected to be actively involved in the implementation of the project.
- v. It is recommended to use locally available materials in the implementation of the project.
- vi. The teacher will assess each task using the assessment rubrics provided.
- vii. Equipment can be borrowed from the school community and shared by several groups where possible without having to buy new ones.

TASK 1: VALUE ADDITION ON CROP PRODUCE (30 marks)

The community in the school neighbourhood has harvested the following crops:

1. Potatoes
2. Cassava
3. Sweet potatoes
4. Bananas

The agriculture teacher has tasked you to obtain and add value to one of the crops harvested.

- a) Name the crop you will choose to add value. (1 mark)
- b) Give **three** reasons for choosing the crop named in (a). (3 marks)
- c) State three ways that can be used to add value to the crop chosen. (3 marks)
- d) List the materials, tools and equipment you require to add value to the crop chosen. (3 marks)
- e) Describe the procedure that should be followed to add value to the crop chosen. (5 marks)
- f) In groups of up to five members, make an oral presentation of the value addition process for the crop you have chosen. (5 marks)
- g) As a group discuss and agree on one crop, how you will obtain, and add value to it for sale at the highest price possible per unit weight. (10 marks)

TASK 2 (HOME SCIENCE): MEAL PREPARATION AND SERVICE (30 marks)

You are taking care of your younger brother at home and are planning to prepare breakfast.

Using the ingredients listed below, plan, prepare, cook and serve pancakes for the two of you.

- Wheat flour
- Eggs
- Milk
- Salt
- Cooking oil
- Sugar
- Margarine (optional)
- Flavoring (optional)

Working in groups of up to 5 members, proceed as follows:

1. Write the recipe you will use to make the pancakes. (3 marks)
2. Make a list of the foodstuff, tools, equipment and materials you will require. (2 marks)
3. Prepare, cook and serve the pancakes. (20 marks)
4. You will be expected to use resources economically and observe safety and hygiene practices during the practical. (5 marks)

NOTE:

Take pictures and videos as you carry out the project activities and save them in a folder as your portfolio.
